

# GRIFFIN

Griffin is an aged grass-fed cow's milk cheese with a natural rind, firm texture and malty, earthy flavors. We have taken our farmhouse Tomme recipe and adapted it to include soaking the cheese curds in Terminus Porter from a local Georgia brewery before beginning the molding process. In an effort to add complexity to this recipe we choose this Baltic style porter for notes of chocolate and coffee. We love working with Gate City Brewing Company for this flavorful and unique collaboration.
